

SAMPLE OF PROJECTS COMPLETED

FACILITATION

Client: *City of Richmond*

Provided facilitation, administrative support, report writing, editing and translation and chaired the City council-appointed Group Home Task Force. The project operated over an eight month period and involved supporting a 10 member citizen Task Force that met some 26 times. The issue of group homes was politically sensitive and required much tact and diplomacy on the part of the consultant team. The Task Force was encouraged to reach consensus and successfully delivered its report to City Council, on time.

Client: *British Columbia Ministry of Agriculture and Lands*

Facilitated consultation meeting involving 30 farm leaders and members of the BCMAL and Agriculture and Agri-Food Canada. The purpose of the meetings was to review the current Agricultural Policy Framework update called "Growing Forward". The consultations will contribute to the next federal/provincial/territorial agreement for agriculture.

Client: *Canadian Agricultural Rural Communities Initiative, BC Ministry of Agriculture, Food and Fisheries and Agricultural Workforce Policy Board*

Coordinated and facilitated a leadership development program for organizations designed to stimulate economic development in rural communities. The program was offered in three parts of British Columbia, the north in Dawson Creek, the Okanagan at Kamloops and on Vancouver Island.
